His Honour the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate.

Who being come, their Speaker, the Honourable Rodolphe Lemieux, said:—

May it please Your Excellency,—

The House of Commons has elected me their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who, through me, the better to enable them to discharge their duty to their King and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to Your Excellency's person at all reasonable times, and that their proceedings may receive from Your Excellency the most favourable interpretation.

The Honourable the Speaker of the Senate answered:—

MR. SPEAKER,—I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to His Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence he grants and upon all occasions will recognize and allow their constitutional privileges. I am commanded also to assure you that the Commons shall have ready access to His Excellency upon all reasonable occasions, and that their proceedings as well as your words and actions, will constantly receive from him the most favourable construction.

His Excellency the Governor General was then pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

I desire on this occasion to assure you that it is with great satisfaction that I meet the Parliament of the Dominion for the first time since my arrival in Canada, and avail myself of your assistance and advice in carrying out the important duties that His Majesty the King has entrusted to me as his Representative. It is, indeed, a great privilege to be called upon to administer the affairs of the Dominion and to associate myself with you in the work you are about to begin.

Our Dominion has not escaped the world-wide economic disturbance and industrial depression but has suffered less from it than other countries. Keen observers of the business barometer feel that the worst is about over and that at an early date we may look for a substantial revival of activity.

In many parts of the Dominion continued depression of business naturally produced, in a much larger degree than usual, the misfortune of unemployment. Whilst of the opinion that unemployment relief is fundamentally a municipal and provincial responsibility, my Government has felt that as conditions have arisen in a measure out of the late war, they would be justified in continuing for the period of the winter months the expedient of supplementing by grants from the Federal Treasury the relief contributions of Provinces and Municipalities for the purpose of alleviating actual distress.

The decline of prices in farm products in 1921, as compared with the prices of previous years, has seriously affected agriculture in many parts of the Dominion. The ill-effects of this inevitable deflation have been emphasized by restricted markets and the absence of any corresponding reduction in the cost of production. While improved methods of culture, grading and storage of farm crops in some parts, and greater diversification in others, would materially better conditions, it is apparent that adequate markets and marketing facilities and reduced transportation and production costs lie at the root of the problem. Recognizing such to be the case, my advisers have lost no time in seeking to gain more favourable conditions of sale and marketing for the products of the farm. Communications have been opened with the authorities of other countries looking to an extension of trade and a widening of Canadian markets, and conferences have been arranged between the railway authorities with respect to the reduction of rates upon basic commodities.

You will be invited to consider the expediency of making some changes in the Customs Tariff. While there are details of revision, the consideration of which will require time and care that are not at present available, there are features of the tariff which it is felt may properly be dealt with during the present session.

In order that Government ownership and operation of our national railways now extending through every province of the Dominion may be given a fair trial under the most favourable conditions, it is intended at an early date to co-ordinate the Government-owned systems in the manner best calculated to increase efficiency, and to effect economies in administration, maintenance and operation. The whole transportation situation is one which will require your best attention. It weighs heavily upon our national finances. To assist in obtaining the information essential to an exact understanding and an adequate appreciation of the problem in its many bearings, it is proposed to supplement the work of co-ordination by a thorough enquiry.

The stream of immigration to the Dominion was much interrupted and restricted during the war. Now that the blessing of peace is with us, a renewal of efforts to bring in new settlers must be made. My Government are fully alive to the importance of this question and will use every reasonable endeavour to attract to our country people of the most desirable class, with particular regard to settlement on our undeveloped lands.

The work in connection with the re-establishment, medical treatment and vocational training of former members of the Canadian Forces is being sympathetically and energetically prosecuted. The care of the disabled still demands the best thought of those who are charged with the duty of administering the benefits provided. It is intended, during the coming session, again to consult Parliament concerning some of the problems still remaining.

The long standing question of granting the control of the natural resources of three Western Provinces to their respective Provincial Governments has engaged the attention of my Ministers. Sympathizing with the desire of the authorities of these Provinces, which have now advanced to maturity, to have the same control and management of their resources as is possessed by the older Provinces, my Government have made a proposal to the Governments of the several Provinces concerned, which it is hoped may lead to a satisfactory settlement of the question at an early date.

With the object of promoting economy and increasing efficiency, a Bill will be submitted to you, providing for a Department of Defence, in which the various branches of the defence forces of Canada will be co-ordinated under one ministerial head.

During the interval since the last Parliament, there has been held in Washington on the invitation of the President of the United States an International Conference to consider an agreed limitation of armaments and in connection therewith to reach an understanding concerning the political relations of the Powers interested in the regions of the Pacific and the Far East. From this Conference treaties of far reaching

consequence have resulted. It is the opinion of my advisers that approval of Parliament ought to precede their ratification on behalf of Canada. The treaties with appropriate explanations will accordingly be placed before you during the session.

As the result of recent discussions among the Powers, it has been decided to hold at Genoa a Conference with the object of securing, through frank and amicable consultation among the nations who have been at war, a concerted effort to repair the grave dislocations in the economic and financial field that have everywhere followed the war. The Government of Canada has been invited to participate and delegates have been appointed for the purpose.

An invitation has been extended to the Government of Canada by the Government of the United States to take part in a Postal Conference, at which all phases of mail communication from one country to the other may be fully discussed. Reciprocating the spirit that has prompted the invitation, the Canadian Government will, in due course, appoint representatives to meet the representatives of the United States for the purpose mentioned.

Members of the House of Commons:

The Public Accounts for the last fiscal year will be laid before you. At an early date the Estimates for the coming year will be submitted. In their preparation imperative need for economy has rendered necessary the non-inclusion of many undertakings, appropriations for which must await a more favourable financial situation.

Honourable Members of the Senate:

Members of the House of Commons:

In inviting your careful consideration of the important matters which will engage your attention, I pray that Divine Providence may guide and bless your deliberations.

His Excellency the Governor General was pleased to retire.

The Commons withdrew.

After some time the Senate was resumed.

PRAYERS.

The Honourable the Speaker informed the Senate that there was a Senator without waiting to be introduced.

The Right Honourable Sir George Eulas Foster was introduced between the Honourable Sir James Loughheed and the Honourable Mr. Foster (Alma), and having presented His Majesty's Writ of Summons, it was read by the Clerk, as follows:—

His Honour the Speaker presented to the Senate the Report of the Joint Librarians of Parliament, for the year 1921.

The same was then read by the Clerk, as follows:—

REPORT OF THE LIBRARIANS FOR 1921

To the Honourable the Speaker of the House of Commons:

The Joint Librarians have the honour to submit the following report for the year 1921:—

The undersigned record with regret the death of Mr. Martin J. Griffin, which occurred on March 19, 1921. Mr. Griffin, after a service of thirty-five years as Parliamentary Librarian, retired on July 7, 1920. His extensive knowledge of parliamentary and political literature was widely recognized, and his loss will be felt by many users of the Library, and by those who came in contact with his helpful and richly-stored mind.

A list of donations to the Library and of copyright works will be submitted.

The Supplementary Catalogue of those books purchased since the last report is now in the hands of the printers, and will be laid before the Houses of Parliament without delay.

From the British Museum has lately been received as a gift a valuable work by Sir G. F. Warner, in four volumes, with the title "Catalogue of Western Manuscripts in the old Royal and King's Collection." The work is in folio and consists of copies of the Manuscript Library of George the Third. The fourth volume is of special interest, and is composed of plates illustrative of the manuscript copies of early Bibles, and other documents, covering the period from the 5th to the 15th century.

The undersigned desire to refer in special terms of appreciation to a valuable and large collection of books given to the Library by the late Edward Bruce Bates, of Ottawa. Mr. Bates was for forty-one years in the Ottawa post office, latterly as deputy-postmaster. He was a student and whole-hearted lover of books, and highly esteemed by those who knew him. By the terms of his will, the Trustees were "to allow the Chief Librarian, or Librarians of the Parliamentary Library at Ottawa to select from my library such books as he or they shall see fit."

The books in question consist of more than four thousand volumes. They have been stored in the vaults for the time being, and when proper space is arranged during the present year they will be duly catalogued and kept in a special room.

Amongst some of the volumes of interest may be mentioned the following:—

Editions de luxe of Goethe's Faust, Cervantes' Don Quixote, the Rubáiyát of Omar Khayam, Walton's Compleat Angler, etc. The Complete works, in fine editions, of Ruskin, Macaulay, Lord Beaconsfield, Kipling, Richardson, Jeremy Taylor, Swift, Carlyle, Washington Irving, Newman, Hazlitt and many other well-known authors. Shakespeare's 'Poems and Pericles'; facsimile of 1st edition. Shakespeare's 'Comedies, Histories and Tragedies'; facsimile of 1st folio edition, 1623. Chaucer; facsimile of 1st collected edition in British Museum, 1532. "Jesuit Relations and

Allied Documents," in 73 volumes (Thwaites' edition). Complete works of many of the chief poets. A number of the best French classics. A large number of dictionaries of various languages, of Bibles in different languages, and of books of scenery of various countries.

Some disorganization of the exchange system of the Library has taken place during the past five years, resulting in the falling off of receipts of the Laws and Sessional Papers of various governments of the United States. Owing to the congested space of the Library, it was decided to obtain if possible the missing laws of those States of which broken sets existed, and to refrain from any attempt to collect other documents, with the exception of those from New York State, which had been well kept up. As a result there has been received by the courtesy of various State Librarians a fairly complete collection of the Laws. These, and all the documents of the United States Federal Government, have been placed in classified order in the ground floor room obtained from the House of Commons, referred to in the last report.

The two rooms on the ground floor which were obtained by the courtesy of the Senate, and which were fitted up with steel shelving by the Public Works Department, are now occupied by the Sessional Papers of the House of Lords, and by reserve sets of the Canadian Statutes, Sessional Papers, Debates, etc., in both languages.

Reference was made in the report of last year to the congested state of the Library, and the difficulty which is necessarily found in endeavouring to shelve books in a way which will prove most convenient to the users of the Library. It was discovered last year that there was a considerable amount of unused space between the inner and outer walls on the south side of the Library. After a conference with the Public Works Department, it was considered feasible to utilize this space. Funds were allocated for the purpose, and the work has progressed to a point when the shelving can be undertaken. The undersigned appreciate the assistance of the Deputy Minister of Public Works and the Chief Architect and his officers in thus providing a series of small rooms, which it is thought will accommodate some thirty thousand volumes, and temporarily relieve congestion. It is proposed during the present year to transfer to these rooms a large number of the books from the Parliamentary, Economic and Law Sections, and also collections of Canadian publications, thus making the works in those departments more accessible, and if possible to remove from the main floor some of the racks which somewhat obscure the beauty of the interior and impair its utility.

It is respectfully pointed out, however, that these measures can provide only a temporary solution of the problem facing the Library, and any effective scheme in a broad way of reorganization, cataloguing and shelving can only be profitably attempted when a new and modern building is constructed.

All of which is respectfully submitted.

J. DE L. TACHE,
General Librarian.

MARTIN BURRELL,
Parliamentary Librarian.

2. In the Second Report of the Committee, Session of 1920, it was recommended that each Department of the Government be required annually to prepare its printing estimates to cover all services, including the annual report. The foregoing recommendation having been approved by Parliament, effect was given thereto by Order in Council of 18th August, 1920 (P.C. 1940).

With the exception of the Auditor General's Office, all Departments of the Government made the necessary provision in their estimates last Session for the payment of the printing of the annual reports. No such provision, however, was made by the Auditor General, as he considered that Order in Council No. 1940 applied only to public departments, and not to himself, as being an officer of Parliament.

Under these circumstances, the Committee recommend that the account to cover the cost of printing the Auditor General's Report for the year 1920-21 be assumed by the Department of Public Printing and Stationery, and charged against the appropriation of 1921-22 for "Miscellaneous Printing."

The Committee further recommends that future payments for the printing of the report of the Auditor General be provided for in the estimates of the Audit Office, in the same manner as for the several departments of the Government.

In order that a proper estimate can be made of the number of bound sets of Sessional Papers required for distribution to the members of both Houses during the Parliamentary recess, the Committee has instructed the Editorial Committee to communicate with every Senator and member of the House of Commons with a view to ascertaining their requirements.

All of which is respectfully submitted.

It was, on division, Ordered, That the said Report be placed on the Order Paper for consideration on Wednesday next.

The Honourable Mr. L'Esperance, from the Special Committee on the subject of the routing of exports via American ports instead of via Canadian ports, presented their Second Report.

The same was then read by the Clerk, as follows:—

The Special Committee of the Senate, appointed to inquire into the diversion of the Export Grain Trade of the Prairie Provinces to American instead of Canadian Seaports, opened its sessions on the 20th of April, 1921.

The witnesses examined were:—

Thomas Harling, Steamship manager, Montreal.

Charles A. Hayes, Vice-President, Canadian National Railways.

P. J. Horning, Dominion Bureau of Statistics.

W. B. Lanigan, General Freight Traffic Manager, C.P.R.

Dr. Robert Magill, Secretary Winnipeg Grain Exchange.

J. W. Norcross, President Canada Steamships Lines.

J. A. Richardson, Grain Exporter, Kingston.

J. S. Royer, of J. B. Renaud Company, Quebec.

J. G. Scott, Chairman Transportation Committee, Board of Trade, Quebec.

Geo. Stephen, Traffic Department, Canadian National Railways.

Brig.-Gen. Tremblay, Harbour Commissioner, Quebec.

W. A. Warne, Dominion Bureau of Statistics.

D. O. Wood, General Foreign Freight Agent, C.N.R.

The evidence submitted to the Committee establishes the fact that at least half, and some witnesses affirm as much as 80 per cent, of the wheat raised in the Prairie Provinces and exported overseas, is so exported through United States seaports.

The Quebec Board of Trade submitted a copy of a Memorial which they had presented to the Railway Commission, at its session in Quebec on the 3rd February, 1921, according to which, as stated in Government reports, the movement of all grain, by water, from Fort William, during six years, from 1912 to 1918, was as follows:—

to Canadian lakeports.. . . .	577,888,581 bushels.
to Buffalo and other U. S. lakeports.. . . .	518,762,749 “

Total.. . . . 1,096,651,330 bushels

and the Memorial further stated that of the 577 million bushels shipped to Canadian lake ports, probably two thirds were for the use of Canadian flour mills and a large quantity for seed grain in Ontario and Quebec, so that the quantity exported overseas from Canadian seaports was very small. The great bulk of the 518 million bushels sent through Buffalo was for export, because the quantity of Canadian wheat consumed in the United States is very limited, owing to the heavy customs duty.

All the witnesses examined seem to admit that this diversion of our export trade had taken place and gave various reasons for it which may be summarized as follows:—

(a) The attraction of better distribution centres, such as New York, which always has abundant ocean tonnage for all parts of the world;

(b) The abundance of elevator storage at Fort William and at Buffalo;

(c) The cheapness of the lake and rail transportation via Buffalo to New York which, at that time, was about 4 to 5 cents per bushel cheaper than the all rail rate to Quebec or Montreal. And though the all water rate to Montreal is a trifle cheaper than to New York, via Buffalo, the saving does not seem to attract much business, probably because of the cheaper marine insurance from New York.

(d) The cheaper marine insurance from New York and all United States seaports, as compared with the St. Lawrence rates which are increased periodically after August. So that, although Quebec, Halifax and St. John enjoy rates 10 per cent cheaper than Montreal, they are considerably higher than the underwriters charge New York, Boston and Portland.

The remedies suggested are various. The Quebec Board of Trade ask that the Government or the Railway Commission should make an all rail freight rate over the Government Transcontinental Railway from Winnipeg to Quebec or Montreal of 20 cents per bushel on export wheat with proportionate rates to Halifax and St. John, instead of 36 cents called for by the tariff at that time, and as compared with 32 cents lake and rail to New York (both these rates have since been somewhat reduced, but the comparison remains the same). They contend that this would force the trade to Canadian seaports and would save the farmer of the Northwest 12 cents per bushel, whilst being fairly profitable to the railway, as the cost, including the cost of hauling back empty cars, would not exceed 17 cents.

The Quebec Board of Trade also ask that the Government should build grain storage for 10 million bushels at each of the ports of Quebec, Halifax and St. John—Montreal being already fairly provided for—so as to ensure a continuous grain traffic for the Government railways; that some of the Government steamships should be put into this service, so as to ensure cheap ocean rates for the crop of the Western farmers, and that the Government should arrange with, or guarantee the marine underwriters, so that marine insurance from Canadian ports shall be no higher than from New York, which, it is alleged, would not on the average cost the Government

anything. In support of their suggestion for 30 million bushels storage at our seaports, the Board of Trade point out that there is storage for 200 million bushels in the Prairie Provinces and on the Upper Lakes, and for only 20 millions at our seaports. So that when the grain moves our seaports become congested and it is driven to Buffalo where, according to General Tremblay's evidence, there is storage for 100 million bushels.

The officials of the Canadian Pacific and Canadian National Railways, who gave evidence, do not seem so sanguine as to regaining this diverted traffic. Mr. Lanigan, of the C.P.R., points out the advantages of New York because of a larger ocean tonnage available for all points, and states that although Montreal has a lower lake and rail rate than New York by 13/10 cents per bushel, yet New York gets the business. He adds that "the canal route is not a great factor. It is too slow." He favors the Georgian Bay, Port McNicoll, route.

Mr. Hayes, of the Canadian National Railways, admits that, in 1916, he made a rate of six cents per bushel over the Transcontinental railway, from Armstrong to Quebec, 960 miles, and did a large business. But he says he was forced to do so owing to congestion. He also used the same rate to Montreal, but in the latter case he was obliged to give a share of the rate to the Grand Trunk and Temiscaming and Northern Ontario Railway (why he should have done so does not appear, seeing that the Government might have got the whole of the earnings by using their own line to Montreal, via Hervey Junction). Mr. Hayes says he does not want to make a *paper rate* that means nothing, but that if he had an offer of a round quantity of grain from a Western point, he could quote "a rate *considerably lower* than the present rate."

Mr. Thomas Harling, of Montreal, said that he had used the port of Quebec as well as Montreal, and that Quebec is open in the fall for six weeks longer than Montreal, but the marine insurance rates from the St. Lawrence go up in the autumn until they reach a figure 50 per cent dearer than New York.

Mr. J. A. Richardson, of Kingston, said that he ships grain from Montreal as well as New York and has shipped some from Quebec. He thinks that a better cable service would help the Canadian grain trade, and that he could arrange ahead for sales and shipments through Quebec if a better rate of inland freight were quoted. He claims that wheat of Canadian inspection is worth three cents per bushel more in England.

Brigadier-General Tremblay, member of the Quebec Harbour Commission, recalled the fact that the Transcontinental railway from Winnipeg to Quebec—1,350 miles—is 200 miles shorter than any other line, and has maximum grades of four tenths of one per cent, making it possible to haul as many as eighty loaded cars. He figured that wheat could be carried from Winnipeg to Quebec, including the cost of hauling back all the cars empty, at a cost of 18 cents per bushel, from which should be deducted the earnings on any freight carried westward.

Dr. Magill, secretary of the Winnipeg Grain Exchange, says in his evidence that in order to ship wheat all rail from Winnipeg it would be necessary to build an assembling point, or storage, somewhere on the line of the railway, and he did not think Quebec a suitable point, because doing so would mean to give up the Canadian flour mill market and the American market, and to limit the owner of the grain to the export market.

Mr. J. G. Scott, Chairman of the Transportation Committee of the Quebec Board of Trade, said that when he was General Manager of the Great Northern Railway of Canada, he brought wheat in large quantity over that road and the Canada Atlantic, in conjunction with Mr. J. R. Booth and M. E. J. Chamberlin, from Parry Sound to Quebec, 550 miles, for five cents per bushel, handling as much as three million

bushels per annum for three years, 1901 to 1903. Referring to the Memorial of the Quebec Board of Trade, as to using the Transcontinental, he figured that, roughly speaking, Canada had paid \$40,000,000 to \$50,000,000 to American railroads for carrying our grain from Buffalo to New York—518 million bushels during six years—that might have been spent in Canada, if it had been possible to export that grain from Canadian instead of American seaports. In his opinion the only way to get this trade back is for the Government to make a radical cut in the all rail rate over the Transcontinental railway from Winnipeg to Montreal and Quebec, with low rates to Halifax and St. John, use the Government steamships to carry the grain, adjust the marine insurance rates, and provide grain storage at our seaports. According to his figures, 20 cents per bushel would be a profitable rate to bring wheat over the Transcontinental railway from Winnipeg to Quebec, and if that rate were made the trade would have to come, and doing so would not affect the Georgian Bay ports, nor the lake trade of Canadian vessels, as the competition would be only for the trade that now goes to New York. He quoted the Chairman of the Railway Commission, Mr. Carvell, as having told the Board of Trade, in Quebec, that if he granted them the 20 cents rate they asked for “the eastern Canada seaports would be flooded with grain.”

Honourable Mr. W. H. Bennett, after closely following the whole inquiry, has expressed his views on the subject as follows:—

“The Dominion of Canada is now the owner, or will be under the arrangement with the Grand Trunk Railway Company, of two lines of railway from the Georgian Bay at Midland and Depot Harbour to Montreal, as also a line from Collingwood to Montreal. From the above three ports on the Georgian Bay for many years there has been carried large quantities of Canadian grain from Fort William to Montreal for export trade and at the same ports in addition from Chicago, Duluth and other American ports, large quantities of American grain has been routed. Of the latter (American grain) some has been exported and also some distributed by rail through the Eastern and North Eastern States. With the closing of Montreal in the winter months grain from the above Georgian Bay ports has been carried to Montreal and from thence over the Grand Trunk System to Portland.

“This plan of carriage is particularly favourable to Canada in respect of the Canadian grain from Fort William to Canadian ports, ensuring the carriage by water to Canadian vessels under the coasting laws between Canada and the United States, and from this point is highly desirable as fostering the shipping interests of Canada. While the winter trade to Portland is not as desirable as if that port was a Canadian port, in view of the fact that the railway from Montreal to Portland belongs to Canada it gives additional trade to federal railways which would otherwise be diverted (with Montreal closed) to Buffalo and to New York, and other Atlantic ports.

“The advantage of lake transit from ports at the head of the Great Lakes (both American and Canadian) to Georgian Bay ports, rather than to Buffalo, is manifest, and every advantage should be taken of this to induce grain to follow in this channel for the advantage of the carrying of grain and other products by Canadian channels.

“In addition to the above national railway ports on the Georgian Bay, there is also the important point of shipment, Port McNicoll, from whence the Canadian Pacific Railway carry the bulk of the grain through Canada, which they deliver at Montreal for export during the summer months, and after the closing of that port carry on to St. John, New Brunswick. The hauling of grain has reached large proportions at Port McNicoll, as not only is grain consigned there from Canadian ports at the head of Lake Superior, but also American grain from Chicago, Duluth, etc. The trade at Port McNicoll in 1921 reached a volume of some 70 million bushels, and in addition a very great quantity of flour.

"The alarming quantity of Canadian products exported via American Atlantic ports should be diminished to the greatest possible extent, and carried by Canadian systems of water and rail transport."

The views of other members of the Committee, who are especially concerned with such conditions which have been so detrimental to the Transcontinental Railway and the Montreal and Quebec harbours, might be summed up as follows:—

"Navigation can remain open and is safe on the St. Lawrence river as late as January every year.

"Since the first aim of the Federal Government must be to secure better freight return on the Transcontinental Railway in order to reduce its huge railway deficit, a more reasonable and inviting rate should be quoted from Winnipeg and other shipping points along the line, so as to have the largest possible quantity of grain sent through Quebec until the closing of that port in January, and then on to St. John and Halifax.

"In accordance with the evidence given before the Committee by Mr. C. A. Hayes, a rate considerably lower than the present rate could be quoted and the Transcontinental Railway would still be making money out of it.

"Since over \$25,000,000 have been spent in improving the navigation in the St. Lawrence river and making it as safe as possible at all times from Father Point to Quebec and Montreal, the Government should take the means of securing a substantial reduction in insurance rates from Lloyds and other Marine Insurance Companies, and of putting an end to the extra and prohibitive rates actually enforced."

CONCLUSION

After careful consideration of all the evidence submitted, your Committee is of opinion that there exists a most serious condition of affairs, with regard to the diversion of the Western grain trade to New York and other United States seaports, for export. There seems to be no doubt that two-thirds, and probably four-fifths of that trade takes that route, and that we are paying many millions annually to United States railways, lake carriers and elevators, that would be earned by our own railways and train men, if it were possible to export this grain at Canadian seaports. Since this evidence was taken, and at the present writing Government statistics show that the diversion still continues, and that of the bountiful crop of 1921 no less than 99 million bushels of wheat went from Fort William to Buffalo.

After all the sacrifices that Canada has made in building three transcontinental railways, it is impossible that we should go on allowing our seaports to be deprived of their legitimate traffic, to obtain which our people have been and are being so heavily taxed. A persistence in this policy must inevitably lead to serious dissatisfaction not only in Quebec and in the Maritime Provinces, but also amongst the farmers of the Northwest, who will soon realize that these hostile railway tariffs are imposing a burden upon them which they are not called upon to bear.

It may be, as some of our railway witnesses have suggested, that a reduction in the rate upon grain to our seaports might lead to reprisals and corresponding reductions on the part of United States railways which have been handling so large a share of this traffic. It cannot be injurious to our own railways, because it is an export traffic which practically they are not getting.

In any case such reprisal would certainly benefit the Western farmer, and your Committee feel that it is their duty to report that they recommend that the petition of the Quebec Board of Trade, as stated in the Memorial of that Board to the Railway Commission dated 3rd February, 1921, hereto attached, be granted, and that the Government be advised.—

(1) To cause rates to be granted upon export grain over the Canadian National railway to Quebec, Montreal, Halifax, St. John and Vancouver, such as would develop trade through the above ports.

(2) As a corollary to the recommendation in paragraph one that necessary elevator accommodataion should be provided by the Dominion at Canadian ports.

(3) To arrange with the Marine underwriters or others in such a way that the marine insurance rates from Canadian seaports be as cheap as from United States seaports.

This Committee recommends that 2,500 copies of this report be printed and also 400 copies of the evidence adduced before the said Committee, and that Rule 100 be suspended in so far as it relates to the said printing.

"MAY IT PLEASE YOUR HONOUR:—

The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service;

In the name of the Commons, I present to Your Honour the following Bill:—

'An Act for granting to His Majesty certain sums of money for the public service of the financial year ending the 31st March, 1923.'

To this Bill I humbly request Your Honour's assent."

After the Clerk had read the title of this Bill,

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"In His Majesty's name, the Right Honourable the Deputy of the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which the Right Honourable the Deputy of the Governor General was pleased to close the First Session of the Fourteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

In relieving you of the duty of further attendance in Parliament, I desire to express my pleasure and satisfaction at the extent to which, in addition to other matters of public interest, you have found it possible to deal with the many important subjects to which your consideration was invited at the opening of the session.

The readjustment of the Customs Tariff, to the consideration of which much time has been given, will, it is hoped, meet in a considerable degree the desire for tariff revision, while not creating any serious disturbance of industrial conditions.

The measures passed to aid or control the marketing of certain farm products,

and the manufacture, marking, and sale of fertilizers; for the expansion of cold storage facilities, and for further experimental and research work in the control of fruit diseases and the eradication of bovine tuberculosis, should prove of substantial service in the development of the grain, live stock, dairying, and fruit production industries of the country, and in further protection against their natural foes.

Pursuant to representations made on behalf of the prairie provinces, legislation has been adopted for the re-establishment of a Wheat Board, which it is hoped will meet the desire for a more equitable method of marketing Canadian wheat.

The special committee of the House of Commons appointed to examine into the questions and problems related to the welfare of soldiers and their dependents has submitted many useful and important recommendations on pensions, insurance, land settlement, sheltered employment, and other aspects of re-establishment, which, together with the legislation based thereon, should do much to ensure the fulfilment of the just and patriotic purposes these measures are intended to serve.

The co-ordination, under one ministerial head, of the defence forces of Canada in a single department of National Defence, is certain to increase efficiency, and at the same time effect a much-needed economy in these branches of the national service.

By amendment to the election laws, full freedom of the franchise has been secured for additional thousands of Canadian women. Important temperance legislation has also been placed upon the statutes.

Substantial progress has been made in the negotiations which have taken place with respect to granting the control of the natural resources of the three western provinces to their respective provincial governments.

It is gratifying to observe that the depression of business is gradually becoming relieved, and that unemployment throughout the Dominion has correspondingly decreased. The conference being arranged between the federal and provincial authorities will, it is hoped, disclose means of more effectively dealing with problems incidental to unemployment, whenever and wherever they may arise.

The success of the recent loan operations of the Dominion is gratifying to all. The measures adopted to provide needed additional revenue give assurance of a determination to make reasonable provision for the public service and to maintain the high credit of Canada in the money markets of the world.

Members of the House of Commons:

I thank you for the supplies granted for the carrying on of the public services of the Dominion. The sums appropriated will be expended with due regard to economy and efficiency.

Honourable Members of the Senate:

Members of the House of Commons:

In view of the approval you have given to the treaties concluded at the Washington Conference on the Limitation of Armaments, the Government will be in a position immediately to sanction on behalf of Canada the ratification of these agreements, the effect of which, it may confidently be anticipated, will be of far-reaching significance in promoting international good-will and co-operation.

I humbly thank Divine Providence for the promise of a bountiful harvest, and devoutly pray that when Parliament reassembles, the prospects, at present so bright, will have been realized in all parts of the Dominion.

His Honour the SPEAKER OF THE SENATE then said:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is the Right Honourable the DEPUTY OF THE GOVERNOR GENERAL'S will and pleasure that this Parliament be prorogued until Monday, the 7th day of August next, to be here holden, and this Parliament is accordingly prorogued until Monday, the 7th day of August next.
